Vulcan Solutions becomes Microsoft Gold Partner

Vulcan Solutions, a leading software solutions provider to the Financial Services sector and Government sector, has been awarded the prestigious Microsoft Gold Partner status.

Vulcan Solutions has developed exclusively in Microsoft technologies since 1996. The award is in recognition of the Microsoft expertise within the Vulcan team, and their success in providing Microsoft-based solutions to their customers. The award is based on achieving various criteria including rigorous testing of the company's software products, customer satisfaction and the certification of its technology professionals.

"Gold certification is the highest accreditation within the Microsoft partner programme", commented Colin Cassidy, Partner Development Manager at Microsoft Ireland. "This certification recognises Vulcan's technology expertise and ability to deliver Business Applications and Custom Software Solutions to the Financial Services sector. We look forward to working with them as they continue their success in delivering high quality Microsoft-based solutions into leading Financial Services customers in Ireland and abroad."

On achieving this award, Cian McNamara, General Manager at Vulcan Solutions, said "Being a software solutions provider that is focused on Microsoft technology, we are delighted to become a Gold partner. This certification strengthens our engagement with Microsoft, and increases the support available to us, and this ultimately benefits all of our customers."
